To Who it may concern:

My wife and I were looking for a painter to paint the interior of our house. Some family friends said they were having their interior painted and recommended WK Painting. We contacted Wayne Khim and he came out the next day and gave us a very reasonable quote. Explained what he would do, products he was using, and what the time line and schedule would be. We agreed, Wayne completed the painting within the time line he quoted. Wayne was very communitive through the whole process and the interior paint job turned out fantastic. We were so impressed that we also had our kitchen cabinets painted by WK painting. Wayne again out did himself with excellent results. Wayne was always in communication with us throughout the process, even letting us know when he was going to lunch and when he would return. Wayne was a perfectionist and did not stop until it met his approval. We trusted Wayne and left him the code to our alarm so he could work while we were out of town and always felt we could trust Wayne. Wayne did excellent work and we are very pleased with the results.

Sincerely

Roger Link
